History

Over the years, the construction industry progressed due to modernisation which has attracted many homeowners. With the rising demand for such modernised civil and architectural designs, there has been a great need for a company with such versatility in both modern and traditional civil and construction.

Established in 2019 (Nyati Construction) NMP Civil and Construction is a fully registered service provider in the civils, construction, and maintenance which over the years has been intensifying its identity as the leading civil and construction company. With core functionality which incorporates civil and construction services such as Site Clearance, Ground Preparation, Drainage Works, Building Maintenance, Renovation, we have seen a great transformation in the industry.

Industry Experience

NMP Civil and Construction is proud to have worked on several projects including building duplex houses in some of the most exclusive areas such as Durbanville, Clara Anna Fontein Estate, Somerset West and Kleinmond among other areas in the Western Cape.

Some of the services NMP Civil and Construction has also been involved in over the years includes renovations, painting, and maintenance in areas like the Sea Point Cape Town, Claremont, Huddson Estate Kraaifontein Rural among other areas in the Western Cape.

Mission Statement

- To provide civil and construction services with unwavering consistency to clients in the Western Cape province and beyond.
- To maintain good relations that encourage highest standards of service delivery
- To offer services to individuals, groups, companies, and investors.

Our Vision

NMP Civil and Construction is determined to grow, reach out to many provinces in the Republic of South Africa and ultimately become an international service provider in the building trade.
